# 2015 RACE CAR BODIES & ACCESSORIES

## ABOUT OUR COMPANY

Five Star Race Car Bodies, a division of Five Star Fabricating, Inc. was formed by Carl Schultz and Fran Prestay in the late 1970s in Twin Lakes, Wisconsin. It began as a side job for the two in response to a need for innovative sheet metal products in the stock car racing industry. Fran owned an auto service shop across from Carl's local plumbing and heating business, and after a rough night at the local short track, Fran asked Carl to produce a set of sheet metal fenders for his car since finding stock parts in the salvage yard was difficult and time consuming.

The new fenders were a hit with other racers, who wanted them for their own cars. Seeing an opportunity and eager to accept a challenge, Carl and Fran began producing components for the 1979 Camaro. Word of mouth and a small ad in Stock Car Racing magazine led to a tremendous response from racers across the country.

From that '79 Camaro body, the product line quickly diversified and expanded to include tough and durable thermoformed polypropylene, light weight hand-laid fiberglass and advanced composite race car body components, moving Five Star to the forefront of the industry. We are experts in manufacturing large, complex composite body panels that require both structural integrity and aesthetic quality.

After becoming an industry leader in formed windows from existing branded polycarbonate, our engineers devised improvements in material composition and coatings which led to the development of our own superior line of polycarbonate. Five Star premium racing windows are the #1 windows used in all motorsports, creating new standards in toughness, durability and weather resistance.

Five Star has been privately owned by the Schultz family since 2010. We lead the industry in manufacturing with over 125 employees and 200,000 square feet of floor space dedicated to the design, manufacture, and distribution of body panels, windows and accessories.

Our multi-unit facility is on the leading edge of technology, production capability and logistics. We are ready to put our experience and expertise to work for you.

Five Star Bodies designs and manufactures composite, plastic and polycarbonate parts for NASCAR, Circle Track, Drag Race, Road Race, Offroad applications and much more!

Five Star continues to be dedicated to innovation. As we accept large, more advanced projects and emerge into new markets and industries, we will continue to maintain our deep roots in auto racing, putting our experience and expertise to work for you, our valued customers, by providing durable, high quality parts for years to come!

# ISO 9001:2008 CERTIFIED

This award of ISO 9001:2008 was issued after a diligent 18 month process of assessing and enhancing manufacturing, quality processes and procedures. Systems were audited for compliance by an external, accredited organization. In order to maintain its certification, Five Star is committed to review and continually improve its processes through follow-up audits.

This certification is an important step in assuring that customers continue to receive the very best in quality and service from Five Star Fabricating, Inc. and Five Star Coatings Group, Inc.

## WHAT DOES ISO CERTIFICATION MEAN TO OUR CUSTOMERS?

The renowned ISO 9001:2008 certification means the organization has developed a quality management system and has demonstrated its commitment to enhancing customer satisfaction with processes for continual improvement and the assurance of conformity to customer, statutory and regulatory requirements.

- Commitment from Top Management
- Human Resources
- Best in Class Customer Satisfaction
- Original Design and Development
- Best Purchasing Practices
- Efficient Production Processes
- Control of Customer Property
- Inspection Processes
- Facility Maintenance
- Internal Audits
- Corrective and Preventive Action

## OUR QUALITY POLICY

**"Five Star is committed to total customer satisfaction by supplying consistent high quality, best in class products at competitive prices."**

# ADVANCED BODY TECHNOLOGY

## WHAT THIS MEANS TO YOU...

*The term "Advanced Body Technology" is a big statement we use to assure that our customers are provided with*  
**BEST-IN-CLASS BODIES.**

*Our original products are developed with these 5-steps to keep Five Star at the forefront of quality and performance.*

### 1) CUTTING EDGE AERO DESIGNS

Aerodynamically engineered designs using the latest processes such as CFD and Wind Tunnel testing by qualified engineers. All of our bodies are designed with maximum downforce and peak front to rear aero balance!

### 2) INNOVATION

STATE OF THE ART MATERIALS AND PROCESSES- We NEVER sit still. Continually seeking performance gains by researching & developing new materials and manufacturing processes.

ORIGINAL DESIGNS- Our 9 member Product Development Team monitors the continual improvement of original new products, processes and ideas.

### 3) REPEATABLE FIT

Replacement parts that fit the same, every time assuring that our bodies are the EASIEST TO INSTALL and maintain.

### 4) TESTED TOUGH

As you can see from several of our You Tube videos, a vital part of our R&D process includes various series of highly destructive tests to gauge optimal performance of our parts. Nobody makes stronger parts. "Spend more time racing and less money replacing!"

### 5) ULTRA LIGHT

Cutting weight without sacrificing strength and durability. We strive for the lightest allowable weight in all markets we serve. We specialize in race car body weight reduction without aero deflection and adding unnecessary cost.

# ABOUT OUR PREMIUM BODY MATERIALS

## ULTRAGLASS COMPOSITES

IT'S NOT THE SAME OLD SCHOOL  
FIBERGLASS OTHER BODY COMPANIES OFFER

**FIBERGLASS REDEFINED. THIS NEW COMPOSITE BLEND USES SPECIAL FABRICS AND LAMINATING PROCESSES DEVELOPED BY US AND AVAILABLE ONLY FROM FIVE STAR.**

### **ULTRAGLASS IS:**

- Ultra-Strong: No Other Composite Is Stronger
- Ultra-Tough At Impact Absorption: Panels Deflect 300% Further Before Breaking = Less Debris On The Race Track!
- Ultra-Green: 93% Reduction In Harmful Emissions During Manufacturing Process

### **ULTRAGLASS BODY PANELS HAVE THE SAME HIGH QUALITY YOU EXPECT FROM FIVE STAR:**

- Zero Surface Deflection At All Racing Speeds
- All Panels Are Buffed To An Excellent Surface Finish And Wrapped For Protection
- Smooth Inner Surface
- All Products Are Manufactured In Our EPA & OSHA Environmentally Compliant Facility.

### **ULTRAGLASS USED IN LATE MODEL STOCK AND OFF ROAD PRO 2 & PRO 4 TRUCK PARTS IS ALSO:**

- Ultra-Light: Over 30% Lighter Than Standard Hand-Laid Composites
- Made With A Smooth Dyed Black Inner Surface That Eliminates Painting

**NOTE: FOR SUPERIOR DURABILITY, WE RECOMMEND USING  
MOLDED PLASTIC PANELS INSTEAD OF COMPOSITES.**

**IF YOU ARE TIRED OF REPLACING BODY PANELS OVER & OVER,  
PERHAPS IT'S TIME TO SWITCH TO FIVE STAR ULTRAGLASS!**

# ABOUT OUR PREMIUM BODY MATERIALS

## ADVANCED COMPOSITES

THE LIGHTEST & STRONGEST BODY PANELS  
ON THE MARKET!

### WHAT IS A PREMIUM ADVANCED COMPOSITE BODY PANEL?

These parts are made with a laminate blend that is very close to a carbon fiber blend in strength and weight but without added costs.

### THE STRONGEST, LIGHTEST WEIGHT PANELS, WITHOUT COMPROMISING RIGIDITY

- Up to 47% weight savings over standard fiberglass composite panels
- Made with the best state-of-the-art materials and advanced manufacturing processes
- Precision weight control
- No surface print-through
- Tremendous shear (tear) resistance
- Zero Surface Deflection At All Racing Speeds
- All Panels Are Buffed To An Excellent Surface Finish And Wrapped For Protection
- Smooth Inner Surface
- All Products Are Manufactured In Our EPA & OSHA Environmentally Compliant Facility
- If parts are not going to be painted, we recommend top coating with an automotive clear-coat, as these surface primers are not UV protected

### DON'T BE FOOLED BY CLAIMS OF "LITE WEIGHT" HOODS AND ROOFS MADE BY OTHERS!

- These are cheap imitations and are not even close to what we offer! They try to mimic the fabrics we use, but they don't understand the entire process which makes our parts the best! Not the same materials and not the same manufacturing process
- Some will simply reduce the amount of material used which results in a flimsy part that will not retain its shape at race speeds and will require additional bracing which adds additional weight to the installation

THE QUALITY & DURABILITY YOU REQUIRE,  
THAT NO OTHER BODY COMPANY CAN OFFER!

# ABOUT OUR PREMIUM BODY MATERIALS

## HIGH-IMPACT MOLDED PLASTICS

**UNSURPASSED IMPACT RESISTANCE  
& DURABILITY**

**MADE WITH OUR OWN SPECIAL BLEND OF PLASTIC  
THESE PARTS FEATURE UNMATCHED DURABILITY AND SHAPE CONSISTENCY**

### **SUPERIOR & EXCLUSIVE FIVE STAR PLASTIC MATERIALS**

- Ultra-durable, light weight material, holds up in the toughest racing conditions
- Five Star uses a mixture of different exclusive materials to fit the appropriate application
- Engineered high elongation provides superior flexibility while maintaining structural integrity

### **UNIQUE FIVE STAR PLASTIC FORMING PROCESSES**

- Formed using our computer automated thermoforming machines
- Parts are formed using state-of-the-art high production forming equipment, with temperature-controlled cast aluminum tooling, to assure superior shape consistency
- Parts made to a plus or minus 5% target weight

### **FIVE STAR PLASTIC PRIMER IS REQUIRED BEFORE PAINTING.**

- It is specifically engineered for the plastic materials we use
- Other automotive grade primers on the market may not work at all

**QUALITY YOU EXPECT FROM FIVE STAR THAT YOU WON'T  
GET FROM OTHER BODY MANUFACTURERS**

# ABOUT OUR PREMIUM BODY MATERIALS

# POLYCARBONATE RACING WINDOWS

USING OUR EXCLUSIVE OPTICAL GRADE MATERIAL THAT NOBODY ELSE CAN OFFER

## THE BENEFITS OF POLYCARBONATE

- Significant weight savings compared to glass
- Driver safety
- Can be formed into multiple shapes or styles

## THE BEST OPTICAL CLARITY

- We only use the highest Optical Grade Polycarbonate developed exclusively by, and only available from Five Star
- Our material shall not be confused with the lesser optical and hard coating grade LEXAN Brand
- We invented our own forming process, which assures you superior optics and perfect fit

## OUR HARD COATING

- Polycarbonate is a soft material, which is how it absorbs impact. Because of this, it scratches easily and has poor chemical/UV resistance. A Mar-Resistant Hard Coating is a much better quality product with a significantly longer product life. We coat using our world-renowned high tech process
- The highest abrasion & chemical resistance for unsurpassed durability
- Flexible coating applied before molding allows for easy shipping
- Permanent anti-fog coating is included at no additional cost

## WE CAN CUSTOM FORM FOR YOU!

- We offer in-house design and mold building for the windows you need
- CNC pattern cutting
- We can form windows from factory glass for limited quantity orders
- We can meet all of your other polycarbonate/acrylic needs - not only racing windows!
- Call or email us to get a quote on your custom project

## GREENHOUSE STYLE BODIES

This style of body is very easy to mount. This 2 piece roof configuration offers several benefits over the traditional style body. This body offers molded plastic quarter panels for the ultimate durability.

### THIS BODY STYLE IS THE EASIEST OF THE 2 ABC STYLE BODIES TO INSTALL.

- The 2-piece greenhouse features mounting flanges with built in locating tabs to speed up mounting
- The rear greenhouse section is a unique configuration that includes integrated side window panels and deck lid filler
- Rear window installation is quick and hassle free
- A rear package tray on the rear greenhouse section makes mounting your interior panels a snap!
- The greenhouse will fit all templates without hassle if mounted to proper height dimensions
- This is the only ABC body to feature Molded Plastic Quarter Panels for superior durability. Longer life than fiberglass. Equal aerodynamic performance

### THE ABSOLUTE STRONGEST, MOST DURABLE BODIES!

#### OPTIONAL ADVANCED LIGHTWEIGHT COMPOSITE PANELS

- Reduce high weight by 47%
- Zero high speed deflection
- Lowers your center of gravity
- Stronger than standard fiberglass with better tear and impact resistance
- Same high demand manufacturing process as required by NASCAR Sprint Cup Series

#### ULTRAGLASS - THE MOST DURABLE FIBERGLASS

- Zero surface deflection at high speeds and absorbs heavy impact
- 300% stronger and MORE DURABLE than any other standard fiberglass
- **CHOOSE YOUR COLOR!!** Exceptional color match and superior surface finish

## TRADITIONAL ROOF BODIES

This is the original body configuration. Many racers still prefer this style. The choice is yours. This body has a one-piece roof with full quarter panels and a separate deck lid filler.

### THE ORIGINAL DESIGN. CAN BE MOUNTED TO FIT YOUR NEEDS.

- This body has a single roof with separate full quarter panels and a deck lid filler
- This body will come close to fitting all templates without hassle if mounted to proper height dimensions

### THE ABSOLUTE STRONGEST, MOST DURABLE BODIES!

#### OPTIONAL ADVANCED LIGHTWEIGHT COMPOSITE PANELS

- Reduce high weight by 47%
- Zero high speed deflection
- Lowers your center of gravity
- Stronger than standard fiberglass with better tear and impact resistance
- Same high demand manufacturing process as required by NASCAR Sprint Cup Series

#### ULTRAGLASS - THE MOST DURABLE FIBERGLASS

- Zero surface deflection at high speeds and absorbs heavy impact
- 300% stronger and MORE DURABLE than any other standard fiberglass

# LATE MODEL STOCK CAR BODY

This style of body is very easy to mount. This 2 piece roof configuration offers several benefits over other styles of bodies. This body offers molded plastic quarter panels for the ultimate durability.

APPROVED  
FOR USE  
IN:

## THIS BODY IS THE EASIEST TO INSTALL.

- The 2-piece greenhouse features mounting flanges with built in locating tabs to speed up mounting
- The rear greenhouse section is a unique configuration that includes integrated side window panels and deck lid filler
- Rear window installation is quick and hassle free
- The greenhouse will fit all templates without hassle if mounted to proper height dimensions
- This is the only Late Model Stock body to feature Molded Plastic Quarter Panels for superior durability. Longer life than fiberglass. Equal aerodynamic performance
- For short track racing, we recommend molded plastic fenders, quarter panels and rocker panels for longer panel life without sacrificing performance

## THE ABSOLUTE STRONGEST, LIGHTEST AND MOST DURABLE BODIES!

### LMSC ULTRAGLASS - THE MOST DURABLE FIBERGLASS

- Reduce high weight by 30%
- Black dyed inner surface
- Lowers your center of gravity
- Zero surface deflection at high speeds and absorbs heavy impact
- 300% stronger and MORE DURABLE than any other standard fiberglass
- **CHOOSE YOUR COLOR!!** Exceptional color match and superior surface finish

**B CB R W Y**

**CHASSIS:** Late Model Stock Car perimeter

**ROOF HEIGHT:** 48"

**TREAD WIDTH:** 64 1/2"

**WHEELBASE:** up to 106" (plastic fenders)  
or 108" (Ultraglass fenders)

## COWL INDUCTION

### COLD AIR BOXES

EXTENSIVE FLOW BENCH TESTED FOR PEEK AIR FLOW

- Ultra light weight, strong and durable composite construction.
- Maximum airflow using air filters as short as 3" without cfm loss
- Increased distributor & under hood clearance
- Fits a standard 14" filter element

#### 4 BARREL AIR BOXES:

- Your choice of 3 angles to ensure a proper, level fit on your engine.
- These boxes feature a patented machined adapter ring for clean airflow, better fit & durability.
- How to determine air box angle option:
  - Set car at proper ride height.
  - Place angle finder on carburetor.
  - Choose the angled box that is closest to making air box level

#### OFFSET 2 BARREL AIR BOX:

- Offset 2 barrel air box is for engines with a larger setback.
- Designed to position the air filter farther forward for optimal flow without obstructing the cowl opening.

#### 2 BBL AIR BOX - DYNO TESTED!

Offset air box uses standard round filters

# CUSTOM APPLICATIONS

## MOLDED POLYCARBONATE SHEETS

- Oversized molded sheets are typically 1½" larger than stock (you cut it to fit).
- Prices include all forming costs. These are not flat sheets!
- For your convenience, Five Star maintains a large inventory of molded windows.
- If the window you need is not listed in this catalog, you can easily order and price your window using these measurements & the chart at right.

### MEASURING FOR OVERSIZE WINDOWS

**TWO MEASUREMENTS ARE NEEDED TO DETERMINE WHICH SHEET YOU NEED.**

- The height: Place your window on end upon a level space with the roof edge down. Measure DIM A, from the floor to the highest point.
- The width: Measure across the widest point (DIM B) to be sure that the width does not exceed 70 inches.
- If DIM A is less than 39" use Sheet #1
- If DIM A is 39-47" use Sheet #2

### MOLDED SHEET PRICING

**THE #1 WINDOW USED IN ALL MOTORSPORTS!**

- The BEST optical QUALITY in the INDUSTRY
- A special PERMANENT ANTI-FOG coating, standard
- Clean cut, drop-in ready windows with blacked-out border
- 1<sup>ST</sup> RATE scratch - chemical - sandblast & abrasion resistance

**#1 WINDOWS USED IN ALL MOTORSPORTS!**

**THE BEST OPTICAL QUALITY IN THE INDUSTRY!**

# WINDOW OPTIONS

## OVAL TRACK - DRAG RACE - ROAD RACE & MORE!

### FIVE STAR IS THE LEADING MANUFACTURER IN RACING WINDOWS!

- Unrivalled optical quality on all windows with a permanent anti-fog coating and first-rate scratch, chemical, sandblast and abrasion resistance!
- We use the same top quality materials & technology for ALL of our windows from Hobby Stock through top professional classes!

### OVERSIZED WINDOWS

- 2" larger than the window frame and requires cutting, trimming, beveling and drilling.

### TRIMMED WINDOWS

- These windows are cut to fit into the window frame and require beveling and drilling.

### PRE-CUT TO FIT WINDOWS

#### THESE WINDOWS ARE CNC-CUT USING A 3-STEP AUTOMATED PROGRAM:

- The formed window is cut to exactly fit into the window frame.
- A bevel is machined along all edges.
- In some applications, the window is then drilled and countersunk, a perfect match for Five Star's Window Installation Kit!

### BLACK-OUT BORDER

#### SAVES HOURS OF PREPARATION & AGGRAVATION!

- Professional appearance is printed with ultra-durable, high-quality, scratch-resistant and non-flaking permanent ink.
- Black-out Borders are available on custom-formed windows for higher-quantity production runs only.

### WINDOW THICKNESS

- (4) thicknesses available: 1/4", 3/16", 1/8" & .093"
- **MOST RACING ASSOCIATIONS** have specific rules for window thickness and bracing requirements.

**TECH TIP: FIVE STAR'S  
MAR-RESISTANT COATING**

\*PRICES & PART NUMBERS SUBJECT TO CHANGE WITHOUT NOTICE.

**Mar-resistant windows last longer than uncoated windows!**

- Uncoated polycarbonate offers no protection against scratching and cleaning uncoated windows can result in scratch marks, affecting visibility.
- For best results, **ALWAYS USE FIVE STAR'S WINDOW CLEANER.** It is specially formulated for polycarbonate windows.

# TERMS & CONDITIONS

## TERMS AND CONDITIONS

**FIVE STAR STOCK CAR BODIES ARE AVAILABLE THROUGHOUT NORTH AMERICA FROM OUR NATIONWIDE DEALER NETWORK. IF THERE IS NO DEALER IN YOUR AREA, PURCHASES CAN BE MADE DIRECTLY FROM FIVE STAR. IF YOU HAVE ANY QUESTIONS, WE WOULD BE HAPPY TO ANSWER THEM FOR YOU!**

**DEALER DIRECT ORDERS:** We encourage all customers to buy from our stocking dealers. If the dealer in your area knows the body style you are running, he will stock the items you need. Also, through our dealer incentives, many times he can SAVE you money on shipping charges. Call for the dealer nearest you.

**FACTORY ORDERS:** Most orders are shipped the same day they are placed. Our telephone hours are 8:00 am to 5:00 pm Central time, Monday through Friday, evenings and weekends by chance. A \$20.<sup>00</sup> packaging fee will be charged on motor freight orders under \$150.<sup>00</sup>.

**SHIPPING:** All orders are shipped FCA Five Star Fabricating, Twin Lakes, Wisconsin freight collect. All truck freight orders must be pre-paid with credit card, cashier's check, money order, bank wire or certified check. UPS orders may be pre-paid with VISA, Mastercard, Discover, AMEX or can be shipped COD/cash.

**RETURNS:** Unused parts may be returned provided the items are in new, undamaged condition (no dents, scrapes, holes drilled, rust, etc.). Returned items must be packaged with care and shipped freight pre-paid to Five Star Fabricating, Inc., 36728 89th Street, Twin Lakes, WI 53181. A 20% re-stocking charge applies on all returns. No returns on special order items.

**WARRANTY:** Due to the intended use of these products in racing, Five Star Fabricating, Inc. makes no statement of warranty or guarantee, written or oral, expressed or implied. Once the part is installed, the purchaser must assume all responsibility arising from malfunction, damage or misuse. No employee or officer of Five Star Fabricating, Inc. or its distributors has any authority to make statements contrary to these terms and conditions.

Prices are subject to change without notice.

## PAYMENT OPTIONS

**PAYMENT BY CREDIT CARD:** Five Star Race Car Bodies accepts VISA, MasterCard, Discover and American Express. Your credit card will be billed for the full amount of the order upon receipt and will ship immediately. All orders shipped other than UPS Ground Services must be pre-paid in this manner.

**PAYMENT BY CASHIER'S CHECK/MONEY ORDER:** Five Star Race Car Bodies accepts Cashier's Checks and Money Orders from any US-based bank. Your order will ship immediately following our receipt of your payment. We do not accept personal or company checks under any circumstances.

## UPS SHIPPING

Most component and accessory orders can be shipped via UPS. These items include (but are not limited to) noses, bumper covers, aluminum & steel doors, spoilers, formed steel bumpers, installation kits and rivets.

**UPS GROUND:** Shipments sent via UPS Ground will deliver before the end of the business day by a time pre-determined by your zip code. This varies from one to five business days. Please contact our Customer Service Department for actual UPS shipping time.

**UPS NEXT DAY AIR:** Shipments sent via UPS Next Day Air will deliver before the end of the next business day following shipment.

**UPS NEXT DAY AIR SATURDAY DELIVERY:** Shipments sent via UPS Next Day Air Saturday Delivery will deliver by 3:30 pm (ET) Saturday.

**UPS SECOND DAY:** Shipments sent via UPS Second Day will deliver before the end of the second business day following shipment.

**UPS THREE DAY SELECT:** Shipments sent via UPS Three Day Select will deliver before the end of the third business day following shipment.

**Five Star Race Car Bodies uses dimensional shipping weight on all air shipments which many times varies from actual component weight. Due to the extreme costs associated with shipping items by air, we encourage you to plan accordingly when ordering components for your car. Please contact our Customer Service Department with inquiries regarding your special shipping requirements.**

## TRUCK SHIPPING

Orders too large, too heavy or requiring shipment in three or more UPS boxes must be shipped via truck freight. These parts include (but are not limited to) complete bodies, hoods, roofs, quarter panels and some fenders.

All truck orders must be shipped to a commercial address. Residential deliveries will incur a minimum \$45.00 surcharge. Residential address implies that there is a home on the property which is, therefore, not zoned as a business.

Truck shipping times vary with delivery location and carrier. Due to the expense of truck shipping, it is imperative that you plan accordingly when purchasing components for your car.

**NOTE:** Five Star Race Car Bodies uses actual shipping weight on all truck shipments which many times varies from actual component weight. Please contact our Customer Service Department for inquiries regarding truck shipments.
