

## AR-782 Hornet Tires

American Racer in conjunction with Tom Curley of the ACT Series has developed a new Hornet Tire to be used at some of the ACT Member tracks in the Northeastern USA. The tire was used at Thunder Road Speedbowl in a 14" version for the 2015 season with rave reviews and will be mandated at a number of their tracks in their 4cyl "Street Stock" divisions. The goal of this project was to develop an affordable race tire that would meet the needs of many 4 cylinder divisions and it available nationally.

### Key Features Include:

- Available this season in 13", 14" & 15"
- Same affordable price for all sizes
- A short and regular tire in each rim size resulting in 6 roll out sizes from 72" to 75+"
- 3 ply tire
- An innovative "Green" compound using a mix of excess rubber from 2 of their high volume tires
- EE tread pattern
- Intended for Pavement, Possible use on Dirt
- Excellent wear and repeatability
